**ARE YOU ASHAMED OF YOUR
BODY NOW?**

Pal—do YOURSELF a favor! Take a good long look in a mirror. Do you see a pump-out, starved body—scrawny arms—bony shoulders—
—A flabby stomach and skinny legs? Do you girls laugh and tell me when you take a look at your shirt?

BELIEVE IT OR NOT—I can add millions of ripples, steady ho-hum MEAT

Yes! If the girls LAUGH at you now when you take off your shirt—they'll be breaking down the doors to get dates with you—once they've seen the rugged DYNAFLEX BODY I can give you! I'll build you a tough brutal massive body—shoulders clad with solid inches of he-man BRAWN. I'll give you bulging biceps, trip-hammer fists, power-packed legs, and a chest that will have you popping the buttons off your shirt with pride! (—says MIKE MARVEL.

Pal—do YOURSELF a favor! Take a good long look in a mirror. Do you see a sunken, starved body—scrawny arms—bony shoulders—a flabby stomach and skinny legs? Do girls laugh and fellows grin when you talk?

BELIEVE IT OR NOT—I can add solid pounds of rippling, steely ho-man **MEAT** to your build. I can take these skeletal **WIRING** and **BACK** and **WIND** with explosive virile **MAN-MUSCLE**. I can take that saved-in chest and build an **IRON** rugged inches of strong sleek **MAN-SIZED** **BRAWN**. I can sloth your skinny frame with **GIANT RIPPING DYNAMEX** **MUSCLES** that will have the girls gasping with awe and admiration! And with **NO** tiring exercise. **NO** high-priced bar-bell

Or is your problem a body sagging with soft rolls of unhealthy, unhandsome FAT? Flabby muscles — sagging stomach — bloated face — arms heavy with layers of BLUBBER? Are you ASHAMED to go to the beach and let them see your "FAT-MAN PHYSIQUE"?

If **SA**, wake up fellas! **THIS IS IT!** I will peel off that fat and give you a lean virile **DYNAFLEX BODY**, armed with a sheath of hard tough handsome muscles. I can build you lasting, dynamic mass! **HERCULES** will give you rock-hard midsections! **HERCULES** will give you the most powerful legs muscled like coiled steel! **HERCULES** can pack solid **DYNAMITE** into your back and give you a rugged handsome build brim-full of the magnetic **SUPER-BODY SEX APPEAL** girls are hungry for. And with **NO** starvation diets—**NO** fatiguing callisthenics—**NO** expensive health-foods!

DYNAFLEX is the modern miracle of body-building. It takes no tiresome exercises, "musab" diets, protein foods, and no weights or bar-bells. DYNAFLEX is the amazing discovery of a West German Doctor.

those research into the Science of Strength found a thrilling new way to build **GIANT GRAWNY MUSCLES** in ten minutes a day. It's called **THE FLEXING METHOD**. It's so simple—there's a certain way—that is more effective than any you exercised that you could ever imagine. It's called **THE FLEXING METHOD**. With **DYNAFLEX** you get bigger muscles, more strength, more endurance, more speed and stamina, better balance and poise and grace, better heavy weights.

DYNAFLEX means each muscle in your body is exercised in a certain way, and in a satisfying symmetrical **DYNAFLEX** makes that muscle with glowing vibrant new life. It's so simple that you can do it every day! It can cover your body frame with healthy glowing muscles. It's called **THE FLEXING METHOD**—solid shoulders and iron wrists—tough, slim midsection—and trim, powerful legs.

FLEXING!—each muscle once a day! There's nothing wrong with the Barbell Method. But it's not the best. Why? Because? Why waste time and money, why waste your health? **THE FLEXING METHOD**—symmetrical **SAMSON-STRONG BODY**—when you can do it better—**stronger—faster—**

So honest. Down deep you KNOW you envy the boy with the virile, magnificent build. Every man and boy secretly desires a broad brawny back, a solid man-muscled chest, handsome he-man shoulders, arms rippling with tough, steely sinews, a narrow waist, slim hips and springs, power-packed legs. Girls go for a fellow with TWO-FISTED BIG MUSCLE SEX-APPEAL . . . and they only laugh at skinny guys.

Let me give you a glowing new body, brimming over with energy and irresistibly inches of solid muscle on your chest—the man appeal. I can build three inches of beef and brawn on your shoulders. I will mold you a handsome sugar-body of terrific strength, give you a crushing grip, legs strammed with steel springs. A lona taut rock-solid punch-proof midsection. Pack your body with energy and thrilling stamina.

Mike Marvel System, Dept. 100, 285 Market St., Newark, N.J.

AFTER DYNAFLEX, you'll be able to walk
and run like a champion. You'll be able to
stand for the first time in your life, you
will be PROUD of your manly build. You, gal,
say goodbye to your weak, flabby frame—
get ready for adventure and romance with
a solid physique that glows and vibrates
with power. You'll be able to be re-
spected by having people see your MAGNI-
FICENT HE-MAN-MUSCLES at the beach
or gym. And, when the fellows stare with
envy and jealousy—when the girls swoon
and gush—your very legs will be
the building blocks of their love. They will
be amazed! NOW you did it—told them
about the Magic Secret of DYNAFLEX.

Your Pal,
MIKE MARVEL

Priced at

Yes, that price is correct . . . Only \$2.98 for the complete 4 piece set. Not \$2.98 each but \$2.98 complete for all 4 pieces. And there is nothing else to buy . . . no extras, no additions. Its modern appearance and wide stitched simulated leatherette material will amaze you with its good looks.

IMPORTED AND MASS PRODUCED TO MAKE THIS PRICE POSSIBLE

NOT FANCY LUGGAGE — BUT USEFUL, PRACTICAL

You will be thrilled and delighted with the many, many uses you will find for this set. It will make a marvelous gift and your thoughtfulness will be appreciated for such a long time. Lightweight; it avoids the silly situation where the luggage weighs more than the clothing carried. When this offer was first made to us by the overseas company we couldn't believe our ears, but we were delighted when we saw it just a few days ago—and you will be too. Each piece serves a specific purpose such as vanity and cosmetic case (8"), personal valet (10"), overnight case (12") or family size (14").

FIGHTIN' ARMY

BROTHER, IT WASN'T EASY! RIGHT NOW I JUST WANT TO SEE TWO THINGS---YOUR C.O. AND A GOOD MATTRESS... I'VE HAD IT!

"Always Alert"

The day has long passed when our hero took his rifle down from over the fireplace. Then checked the powder horn, took his bullet mould with him, asked his sister to make some patches for him, and counted the available bullets he had in his pouch. Then he said to his faithful wife

"Bessie you stay here and mind the young ones. This should be a short war. We'll teach them redskins a lesson they won't forget for a long time to come."

Five minutes later, our hero turned soldier was riding his horse to join as a volunteer the forces of General William Madison. Make no mistake about it, taking all into consideration he was a very efficient fighting man for his times and also for the conditions under which he had to fight. Today's fighting forces seem to depend upon two factors. The first is the sound training given to the men depending upon the tasks to be assigned to them. The second is the constant research carried on by a variety of experts to see we are ahead of any other country in the world.

As for that research work in the various branches of our armed services we can take a look. Nothing told to you is of a confidential nature so you can freely talk about it with your friends. A program geared for the development of balloons which can remain aloft in the fringes of space for several weeks or more has been lofted into action by the Air Force research laboratories in Cambridge, Mass. The problem. The Air Force needs relatively inexpensive balloons which can support scientific probes near the edge of space.

A development test conducted last summer exemplifies what the Air Force is doing in its search for sturdy, high-flying gasbags. A 34-foot diameter balloon made of a tough, plastic material was eased to an altitude of 68,000 feet and remained there for 19 days before scientists ended its jaunt by radio commands from earth. The balloon, launched at Kindley Air Force Base in Bermuda, covered 9300 miles while aloft. Its route took it from Bermuda, south of Florida, north of Mexico City, then across the Pacific to Hawaii and its cut down point near Iwo Jima.

The balloon was kept under constant sur-

veillance with the help of radio transmitters monitored by scientists at key ground stations. The payload contained performance-monitoring instruments and a variety of radio gear which included the command receiver to trigger the cut-down signal. The success of the flight has opened the way for tests of larger balloons at even higher altitudes.

The Department of Defense has begun construction of the \$700,000 Cumberland Plateau Seismological Observatory located on a 9200 acre site about 12 miles south of McMinnville, Tenn. When the observatory is completed this fall it will be operated by the Air Force. The new installation will be a part of a system of four seismological observatories. The first was completed in 1960 and is located in the Wichita Mountains at Fort Sill, Oklahoma. The Cumberland Plateau Observatory will be similar to the Wichita Mountains Observatory. It will have 21 seismometers located in watertight vaults covered by about two feet of earth.

Ten of the seismometers will be arranged in a geometrical pattern suitable for detecting underground nuclear explosions. All will be monitored by the observatory's amplification and recording equipment. A staff of six will man the observatory—a station manager, station engineer, three data analysts and a station technician. Similar observatories are being built in Oregon and Utah. The entire system will cost approximately 2.1 million dollars.

Army experiments with those everyday coatings known as paint have resulted in two new developments. Scientists at the Engineer Research and Development Laboratories in Fort Belvoir, Va., have come up with an "organic stripper" which can remove paint or enamel from any type of surface within four or five minutes, and a green camouflage paint which reflects a high percentage of the sun's radiation.

The "stripper" which contains detergent emulsifiers, is considered superior to any type of paint remover now available. It softens the paint or enamel film, then releases a gas which lifts the film from the surface. The loosened, partially dissolved paint film is then flushed off with water. The stripper is nonflammable and can be applied to any surface by brush or

spray The new paint was developed after experiments with special green pigments. It can be used to camouflage Army missiles, which in the past have been painted white to prevent absorption of solar energy which could overheat delicate instruments.

The Army has received the first model of a new more-punch-per pound generation of self-propelled artillery. It is the M-107, a 175mm "Long Tom" weighing just under 30 tons. Another new self-propelled weapon, the eight-inch M-110 howitzer, is being produced on an adjoining production line of the company that has delivered the M-107. The M-107 has a 30-foot barrel capable of accurately firing a shell more than 20 miles. It replaced the M-55 self-propelled 155mm gun which weighs about the same, but delivers a much lighter projectile only half as far.

A triple purpose vehicle can carry either the M-107 or the M-110, or be used as an armored wrecker. When the gun is fired, a locking device eliminates spring in the vehicle's tracks, in effect converting them to solid platforms which transmit the recoil force directly into the ground. Thus, the weight of the vehicle can be cut almost in half without interfering with the action of the gun.

The gun control system uses recoil energy to adjust the tube and power loading devices, saving wear on the vehicle's battery. Diesel engines used with the M-107 and M-110 are capable of cruising 450 miles without refueling their 300 gallon tanks. A gasoline powered model would require 450 gallons of fuel for the same distance. Transportable in a C-133 aircraft the M-107 and M-110 have a top speed of 34 miles per hour, can climb a 60 per cent grade, cross over seven foot trenches, and roll over vertical obstacles up to 40 inches in height.

A small, compact magneto requiring no spare parts or maintenance is currently being tested by the U. S. Army. Unlike the conventional magneto, the new one is a throwaway type. It is expected to simplify logistics by eliminating complicated cataloging and supply of repair parts as well as bulky and expensive support equipment and tools. Replacing the entire assembly, using the unitized magneto, has been found to be less costly and time-consuming than replacing parts in the conventional model. In addition, little or no training of maintenance personnel is required. The new magneto weighs three and three-quarter pounds; occupies 45.0 cubic inches and costs less than \$16. The earlier type magneto weighs

nine and one-half pounds, occupies "8.5 cubic inches and costs \$32.

The Army Signal Corps is making plans for a powerful broadcasting system designed to be airlifted by helicopter. The system-virtually a miniature radio studio-could be landed anywhere in the world and go on the air in a matter of hours. One of the transmitters will be a 50,000-watt standard broadcast unit, equal in power to the largest commercial radio station, with an area coverage up to 12,000 square miles. A second transmitter is of 50,000-watt short wave design with a range up to 6000 miles.

A complete broadcasting system can be assembled and ready to broadcast within a few hours. One helicopter can carry a "heli-hut" which contains the broadcast gear. A typical hut may be about 12 feet in length, six feet wide and six feet high. It may weigh 4000 pounds and can be carried by an H-37 helicopter on a 100-mile mission without refueling. Standard Army cargo planes and ground vehicles may also transport the broadcast huts.

The system can receive and monitor outside radio broadcasts, and tape or convert them for rebroadcast on either medium or short wave equipment. It can also be used to originate programming and could broadcast two different programs on two wave lengths to two separate audiences at the same time.

Arctic and Antarctic expeditions have been always troubled by snowfall that buries campsites and shrinks snow tunnels. But at Camp Century on the Greenland icecap the Army is working on the problem. The U. S. Army Engineers are testing a snow trimming machine built to scrape new fallen snow from the top of buildings and snow tunnels. Consisting of a trimmer head mounted on a self propelled platform it runs on a track attached to the roofs of buildings. The track is aluminum and designed to guide, support, and hold down the trimmer. At the same time, the Army is testing a machine that will crush blocks of snow removed by the trimmer. And put the dry, crumbled snow on a pneumatic conveyor system that will take it outside the camp. The conveyor has been under test since last summer.

So there you are. Who says we aren't on the alert. American ingenuity is also being used to solve problems that beset our Armed Forces.

THE END

THE CREATURE

THE CREATURE APPEARED OUT OF THE WATER...IT GREW LARGER AND LARGER!...THE SOLDIERS WERE PETRIFIED!...THEY RAN IN EVERY DIRECTION, NOT KNOWING WHAT STRANGE EVIL HAD BEFALLEN THEM...MEANWHILE UNKNOWN TO THE FRIGHTENED ENEMY...A FEW SPECIALLY SELECTED G.I.'S MADE THEIR WAY THROUGH THE DARK NIGHT! WITHIN A FEW MINUTES A HIGHLY EFFECTIVE ENEMY RADAR STATION WOULD BE BLOWN FROM THE FACE OF THE EARTH...

KILL THE MONSTER!! SHOOT IT DOWN BEFORE IT COMES ASHORE!!!

A-2667

AN ARMY RECONNAISSANCE PLANE FLEW OVER A TINY JAP-HELD ISLAND IN THE PACIFIC...THE ENEMY ANTI-AIRCRAFT GUNS TRIED DESPERATELY TO BLAST THE SMALL PLANE OUT OF THE AIR...

THAT'S IT OVER, THERE, SIR!... THOSE BABIES ARE COMIN' CLOSE!!

A FEW MORE SECONDS AND WE CAN HIGH-TAIL IT OUT OF HERE!!

THE PLANE DIPPED LOWER, TRYING TO GET A BETTER VIEW OF THE ISLAND... IN THE CENTER OF THE THICK JUNGLE IN A CLEARING WAS A JAPANESE PRISON CAMP...THE MEN CHEERED THE AIRCRAFT...JUST OUTSIDE THE CAMP STOOD THE MAIN OBJECTIVE OF THE RECONNAISSANCE FLIGHT...A GIANT RADAR TOWER!

CHARLTON COMICS GIVE YOU MORE!

A FEW DAYS LATER, A SECRET MEETING OF HIGH RANKING MILITARY BRASS TOOK PLACE...

GENTLEMEN, WE HAVE A SERIOUS PROBLEM ON OUR HANDS! A RADAR STATION ON ONE OF THE RYUKYU ISLANDS IS SERIOUSLY IMPAIRING OUR BOMBING MISSIONS ON OKINAWA! WE MUST ELIMINATE THE STATION, OR THE WAR MAY BE PROLONGED BY SEVERAL MONTHS! THE SITUATION IS HIGHLY COMPLICATED!

WE CAN'T SHELL THE ISLAND FOR A VERY GOOD REASON! THE ENEMY HAS SET UP A PRISONER OF WAR CAMP ON THE SAME SITE AS THE RADAR TOWER! A FORCEFUL RAID WOULD COST THE LIVES OF HUNDREDS OF AMERICAN PRISONERS! THEREFORE, AN ALTERNATIVE PLAN MUST BE USED! MAJOR LODY, OF MY STAFF, HAS DEVISED A MOST UNUSUAL SCHEME! HE IS WAITING OUTSIDE TO EXPLAIN.

MAJ. LODY OUTLINED ONE OF THE MOST BIZZARE PLOTS THE GENERALS HAD EVER HEARD...

THE PLAN ENTAILS A RATHER ODD DIVERSIONARY TACTIC! THE ISLAND IS HEAVILY PROTECTED ON ALL SIDES! DEMOLITION EXPERTS CAN HANDLE THE JOB IN LESS THAN TWO HOURS! THE SURROUNDING WATERS ARE RIDDLED WITH MINES, ELIMINATING THE USE OF NAVAL CRAFT! THE MEN WILL SWIM NEAR THE SHORELINE AND CREATE A DIVERSION THAT WILL SHOCK THE GUARDS OUT OF THEIR WITS...

IT'S THE CRAZIEST IDEA I EVER HEARD, BUT IT JUST MIGHT WORK!

IT'S CERTAINLY WORTH A TRY! I'LL GO ALONG WITH IT!

LESS THAN A WEEK LATER SEVERAL UNSUSPECTING GIs WERE GIVEN ORDERS TO MEET WITH MAJ. LODY... SGT. JAY BROCK WAS ONE...

WONDER WHAT'S UP?..MAYBE THEY DECIDED I'VE BEEN SUCH A GOOD BOY, I CAN GO HOME NOW...BOY! HOW I'D LOVE TO GET OUT OF THIS STINKIN' FLEA HOLE...

CPL. MACK TAMPER WAS ANOTHER...

BULLSEYE!! THE JAPANESE JUST LOST ANOTHER TANK! CHALK IT UP, MURPH!

HEY, TAMPER! THE OLD MAN WANTS TO SEE YUH BACK AT THE RANCH..

FIGHTIN' ARMY

PVT. PETE KROTIN AND PVT. HARRY WALKER ROUNDED OUT THE GROUP...

YUH SHUDDA SEEN HER, PETE/ THE MOST GORGEOUS GAMS IN PARIS/ AND A FACE LIKE AN ANGEL/ HALF THE OUTFIT WOULD'VE GIVEN A MONTH'S PAY TO TRADE PLACES WITH ME...

HEY, YOU GUYS/ YOU'RE TO REPORT TO THE C.O. ON THE DOUBLE!

YOU MEN HAVE BEEN ESPECIALLY SELECTED FOR THIS MISSION BECAUSE OF YOUR SPECIALIZED BACKGROUND WITH HIGH EXPLOSIVES! OUR OBJECTIVE IS TO BLOW UP A RADAR TOWER LOCATED ON A SMALL ISLAND LESS THAN A HUNDRED MILES FROM HERE/ THE ENEMY IS PRACTICALLY EXPECTING US...

AS SOON AS THE BALLOON IS INFLATED WE HEAD FOR SHORE AND THE TOWER/ IF ALL GOES WELL, THE ENEMY SHOULD BE SCARED SPEECHLESS, AND WE'LL BE IN AND OUT BEFORE THEY KNOW WHAT'S HAPPENED/ IF NOT--WELL...

MAJOR, THAT'S THE GREAT PLAN I EVER HEARD!

THEN EVERYTHING IS COMPLETELY UNDERSTOOD! YOU'LL PICK UP THE NECESSARY SUPPLIES/ WE'LL MEET AT RENDEZVOUS GREEN TOMORROW NIGHT AT 1830/ THAT'S ALL, MEN!!

YES, SIR!

AT PRECISELY 1830 THE FIVE MEN MET AT RENDEZVOUS GREEN...

YOU'D BETTER HOLD ON TO THIS GREASE PAINT! AFTER THE BOAT DROPS US OFF NEAR THE ISLAND, WE DON'T WANT TO BE SPOTTED!

WHATEVER YOU SAY, MAJOR!

THE SMALL CRAFT STEADILY MADE ITS WAY TOWARD THE ISLAND...

THIS BAG HOLDS THE ANSWER TO OUR SUCCESS OR FAILURE IN THIS JOB! IF THIS SURPRISE PACKAGE DOES ITS WORK, A LOT OF JAPANESE ARE GOING TO HAVE NIGHTMARES FOR A LONG TIME TO COME!

ENTIRELY NEW METHOD

Until recently the process of hypnotic induction was largely based on trial and error methods which succeeded mainly with subjects who were highly susceptible to hypnosis in the first place. The truth is that these highly susceptible subjects make up a very small percentage of the population. That is why amateurs and beginning hypnotists have so often been disappointed in their attempts at trance induction. Now, however, recent scientific research has developed **ENTIRELY NEW METHODS** that are not only sure fire in their results but quick and easy to achieve! For the first time, these new methods are presented in **HOW TO HYPNOTIZE** in language that you can easily and successfully follow on the very first reading!
